MATERIA

BUILT TO PERFORM

MATERIA

Hi tech surfaces

Le lastre MATERIA sono ottenute da miscele di materiali inerti, selezionati per purezza e fusibilità. Il processo produttivo con cui vengono realizzate accelera le mutazioni delle particelle che hanno portato, in migliaia di anni di storia, alla creazione delle pietre. La compattazione avviene mediante pressatura delle materie prime ad elevata densità (450 KG/cm2) a cui fa seguito una fase di cottura, a temperature superiori ai 1.200 °C , che completa il processo di sinterizzazione del materiale, che in questo modo risulta particolarmente resistente e performante, indipendentemente dalla destinazione d'uso.

MATERIA slabs are made from mixtures of inert materials selected for their purity and fusibility. The production technology accelerates the process of particle transformation that over periods of many thousands of years results in the creation of natural stone. The raw materials are compacted to a high density (450 kg/cm2) then fired at a temperature of more than 1200°C to complete the sintering process and give the slabs an extremely high level of durability and performance regardless of their intended use.

Technical Innovation

FULLVEIN3D

FULLVEIN3D è la tecnologia di ultima generazione in grado di creare le venature della superficie del marmo anche all'interno dello spessore delle lastre, come nel materiale naturale. ABK GROUP utilizzando i sistemi più evoluti e sofisticati, si è dotata di un impianto unico e rivoluzionario, nel quale la stesura controllata delle materie prime, ancora prima della fase della pressatura, disegna l'effetto visivo di ciò che la natura ha creato nei millenni. La perfetta continuità fra massa e superficie viene valorizzata anche dal processo di decorazione digitale ad alta risoluzione, che contribuisce a rendere il prodotto ancora più realistico.

FULLVEIN3D is the latest-generation technology for creating marble-effect veins that extend throughout the thickness of the slabs, just like in the natural material. ABK GROUP uses a unique, cutting-edge system in which the controlled deposition of raw materials prior to pressing reproduces the visual effect created by the forces of nature over millions of years. Seamless continuity between the body and the surface is also guaranteed by the high-resolution digital decoration process, which helps to create an even more realistic product.

Technical Innovation

FULLBODY3D

MATERIA, grazie ai più evoluti sistemi di miscelazione e pressatura degli impasti ceramici, è in grado di ricreare la complessa struttura dei materiali lapidei. L'esclusiva tecnologia FULLBODY3D permette di ottenere ciò che la natura ha creato nei millenni, riproducendo l'estetica delle pietre sia in superficie che nel corpo della lastra. La continuità tra massa, superficie e bordo delle lastre è garantita anche dopo le operazioni di taglio, foratura e rifinitura necessarie a ottenere il prodotto finito.

MATERIA uses the most advanced ceramic body mixing and pressing systems to recreate the complex structure of stone. Emulating the processes that occur in nature over millions of years, the unique FULLBODY3D technology reproduces the aesthetics of stone both on the surface and within the body of the slab. This ensures seamless continuity between the body, the surface and the edge of the slabs even after cutting, drilling and finishing operations.

Technical Innovation

Soft **3D**

La tecnologia SOFT 3D consente di realizzare lastre dalla finitura extra morbida arricchite da effetti di bassorilievo che ne esaltano la naturalezza. La differente densità delle materie utilizzate in superficie, nelle zone selezionate, ricrea chimicamente le profondità, che si sovrappongono in maniera esatta alla grafica digitale ad alta risoluzione.

The SOFT 3D technology allows to create slabs with an extra smooth finish, enriched with bas-relief effects that enhance the naturalness of the surface. The different density of the raw materials applied in the selected areas, chemically recreates the depths that exactly match the high-resolution digital graphic.

3D tech

Le superfici 3D di MATERIA rappresentano un'innovazione nel mondo del design grazie all'uso della tecnologia 3DTech, che consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione.
Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.
La tecnologia 3DTech permette di creare texture tridimensionali altamente realistiche e di grande impatto estetico e consente di arricchire le superfici con profondità visiva e tattile, trasformandole in elementi distintivi per qualsiasi ambiente, sia residenziale che commerciale

MATERIA's 3D surfaces are a veritable breakthrough in design, thanks to the use of 3DTech technology: different ceramic materials may be applied, even within the tile body, in perfect alignment with the underlying high-definition digital pattern.
A revolutionary production process that combines materiality with product aesthetic appeal, for extraordinarily sensorial surfaces. 3DTech technology enables the creation of highly realistic visually striking three-dimensional textures. Surfaces are enhanced with visual and tactile depth, transforming them into distinctive elements for any space, be it residential or commercial.

LUX3D surface

La finitura Lux 3D si caratterizza per il suo effetto lucido e brillante, pur mantenendo dettagli in bassorilievo per un effetto visivo sofisticato e ricercato. Ideale per ambienti moderni ed eleganti, dona un senso di spaziosità e luminosità grazie al riflesso della luce sulle superfici.

The Lux 3D finish is characterised by its glossy and luminous effect, while maintaining bas-relief details making it visually sophisticated and refined. Ideal for modern and elegant settings, it bestows a sense of space and luminosity thanks to the light reflecting on the surfaces.

DESTINATION OF USE

Le superfici MATERIA, per le loro caratteristiche, si prestano ad essere collocate in vari contesti. Oltre all'installazione in ambienti umidi e outdoor, le lastre sono perfette come finitura di tutti gli spazi interni, compresi i piani lavoro, i worktop delle cucine e gli arredi in generale.

MATERIA surfaces, due to their characteristics, are suitable for installation in different settings. In addition to the possibility of being placed in humid and outdoor locations, the slabs are a perfect finishing for all interior spaces, including countertops, kitchen worktops and furniture in general.

Kitchen

Le lastre MATERIA rappresentano una scelta intelligente per la realizzazione dei piani lavoro delle cucine: sono resistenti a urti, graffi e shock termici; sono inattaccabili dagli agenti chimici e facili da pulire.

MATERIA slabs are a smart solution for creating kitchen worktops: they are resistant to hits, scratches and thermal shocks. They are also resistant to chemicals and easy to clean.

Bathroom

Le lastre MATERIA offrono ottime performance anche nell'ambiente bagno. Ogni elemento d'arredo come lavabi, piani d'appoggio, fino ai piatti doccia può essere realizzato in maniera sartoriale e curato nei minimi dettagli, valorizzando la bellezza e la qualità delle superfici.

MATERIA slabs also perform very well in a bathroom environment. Every furnishing item, such as washbasins, countertops and even shower trays, can be tailor-made with careful attention to detail, enhancing the beauty and quality of the surfaces.

Furniture

Grazie all'ampia gamma di effetti materici e finiture, le superfici MATERIA vengono impiegate con successo nell'interior design. Come valida alternativa ai ripiani in marmo naturale, le lastre diventano protagoniste di tavoli pranzo, scrivanie per ufficio, coffee table, mensole, ripiani e librerie, sia nei contesti residenziali che commerciali.

Thanks to the wide range of materic effects and finishes, MATERIA surfaces are very popular in interior design. As a great alternative to natural marble tops, the slabs can become the main feature of dining tables, office desks, coffee tables, shelves and bookcases, both in residential and commercial locations.

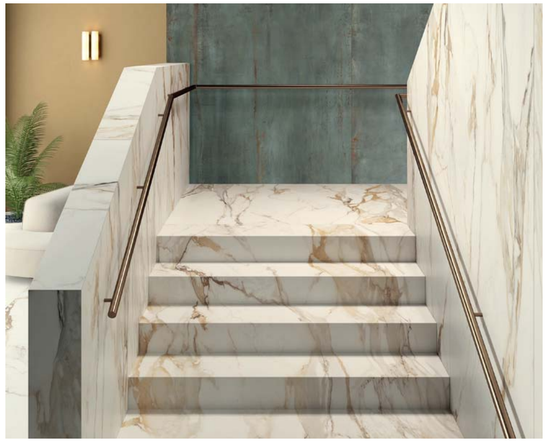

Floor & wall

Con le lastre MATERIA è possibile rivestire pavimenti e pareti con differenti effetti materici che spaziano dal cemento, al metallo, fino alla pietra e al marmo, sia in ambito residenziale sia negli spazi pubblici, compreso il settore alberghiero, la ristorazione, i progetti commerciali e il mondo bagno, wellness & spa.

With MATERIA slabs, it is possible to cover floors and walls with different material effects ranging from cement, metal, to stone and marble, both in residential and public spaces, including hotels, restaurants and retail projects as well as bathrooms, wellness & spas.

Building

Con MATERIA anche scale, gradini, soglie e davanzali diventano dettagli costruttivi di assoluta bellezza.

With MATERIA, steps, thresholds and windowsills become beautiful construction details.

Facade

La gamma MATERIA dispone di 3 diversi spessori per poter soddisfare al meglio le esigenze dell'edilizia, anche nel rivestimento di pareti esterne, sia incollate che a facciata ventilata.

The MATERIA range has 3 different thicknesses in order to best meet the needs of the construction industry, including exterior wall coverings, both glued and ventilated.

Avvertenze per l'utilizzo
Warnings for use

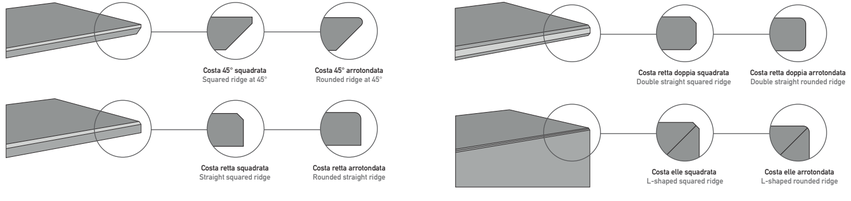

Nella lavorazione delle lastre ceramiche è doveroso dotarsi di una serie di accorgimenti per ridurre i rischi di infortunio ma anche di inalazione di sostanze potenzialmente pericolose. La silice libera cristallina, inglobata in forma inerte all'interno della lastra, diventa inalabile con le lavorazioni successive e, in assenza delle dovute precauzioni, può penetrare nell'organismo provocando, negli anni e per alte esposizioni, effetti irreversibili sulla salute.

When working with ceramic slabs, a number of precautions should be taken to reduce the risk of accidents and to avoid inhaling potentially hazardous substances. Free crystalline silica, present in ceramic slabs in an inert form, may become airborne and inhalable during subsequent machining processes. Without proper precautions, prolonged and high-level exposure to this respirable crystalline silica may lead to serious and irreversible health issues.

Bordi | Edges

Le lastre di MATERIA, grazie allo spessore in tono con la parte superficiale, possono essere lavorate ai bordi con modalità differenti in modo da ottenere svariate finiture.
Queste lavorazioni vengono realizzate tramite macchinari usati solitamente per le pietre naturali e il vetro e permettono di ottenere risultati impeccabili e infinite soluzioni d'arredo utilizzabili nell'ambiente bagno e nell'ambiente cucina.

The MATERIA's slabs, thanks to the color matching of the thickness with the surface, can be processed on the sides in different ways in order to obtain several finishes.
These procedures are achieved through machines often used for glass and natural stone, they provide flawless results and infinite furnishing solutions for both bathroom and kitchen spaces.

Condizioni generali di vendita | General sales terms and conditions

1) APPROVAZIONE Gli ordini pervenutici sono per noi impegnativi solo dopo la nostra conferma scritta.
2) CONSEGNA La consegna del materiale s'intende avvenuta a carico effettuato presso i nostri magazzini. Tutti i rischi di trasporto, compresi ammanchi, rotture, deterioramenti e manomissioni sono a carico del Committente anche se il prezzo pattuito è franco di porto, FOB o C&F. Gli accordi con spedizionieri s'intendono sempre conclusi in nome e per conto del Committente che fin d'ora ratifica ed accetta l'operato.
3) TERMINI DI CONSEGNA I termini di consegna hanno carattere indicativo, eventuali ritardi nelle consegne, interruzioni, sospensioni totali o parziali delle forniture non daranno diritto ad indennizzi o risarcimento danni.
4) CONTESTAZIONI La garanzia della merce è limitata al solo, ed esclusivamente, materiale di prima scelta, con una tolleranza del 5% circa. Le differenze di tonalità non potranno essere denunciate come vizio del materiale. Eventuali reclami in merito alla qualità, tipo del materiale, dovranno pervenirci entro 8 giorni dalla data di consegna. Il compratore s'impegna a tenere a disposizione le partite contestate così da consentire il controllo dei difetti denunciati, in ogni caso la posa in opera ci esonera da qualsiasi responsabilità. Eventuali vizi o difetti di qualità della merce, ove siano denunciati nei termini di legge ed accertati o riconosciuti, danno diritto solamente alla sostituzione dei materiali difettosi, a condizione della preventiva restituzione delle merci contestate, e, su autorizzazione scritta dell'operazione di resa, restando tassativamente esclusi la risoluzione del contratto e qualsiasi risarcimento danni.
5) DIMENSIONI E TONALITA' I nostri materiali sono da classificarsi fra i prodotti cotti ad alta temperatura e come tali possono presentare differenze tra le dimensioni dichiarate e quelle effettivamente consegnate. Così si dica per le differenze di tono all'interno della medesima partita. Quanto sopra perciò non potrà essere oggetto di reclamo da parte del committente.
6) IMBALLO E QUANTITA' Il buono stato degli imballi e della loro confezione nonchè della quantità consegnata resta accertato con l'accettazione della merce da parte del vettore. Questi, firmando la Bolla di Accompagnamento, si rende responsabile del buono stato del materiale e del quantitativo. Il compratore nel caso si verifichino rotture ed ammanchi dovrà chiedere eventuali danni o risarcimenti al vettore.
7) RESI Per nessuna ragione l'acquirente potrà restituire il materiale senza nostra espressa preventiva autorizzazione scritta e tutte le spese sono a carico del Committente.
8) ANNULLI Non verranno accettati annullamenti di ordini se il materiale è già stato prodotto o se è già stata avviata la lavorazione e molto più se è già stata effettuata la spedizione. L'annullamento dell'ordine comporterà in ogni caso l'obbligo da parte del Committente di pagare l'intera fornitura. Nel caso che sia fattibile l'accettazione dell'annullamento il Cliente sarà tassativamente tenuto a rifondere tutte le spese sostenute dal produttore fino a quel momento.
9) PREZZI I prezzi riportati sui nostri listini non sono per noi impegnativi. Ci riserviamo il diritto di modificarli prima dell'accettazione dell'ordine.
10) PAGAMENTI I pagamenti devono essere effettuati solo presso la nostra sede. Il ritardo di 10 giorni di ogni pagamento dovuto, o la mancata copertura nel termine stesso di un titolo di credito, girato o ceduto o emesso dal committente, costituisce grado di insolvenza. In tal caso sarà nostra facoltà sospendere le forniture ed annullare ogni rapporto in corso; immediatamente esigere l'integrale pagamento di ogni rapporto in corso; esigere l'integrale pagamento di ogni nostro credito ed agire giudizialmente al riguardo, in via esecutiva o cautelare nonchè per il risarcimento danni; in ogni caso, trascorsi 10 giorni da ogni pagamento dovuto, siamo autorizzati a emettere tratta a vista con spese senza preavviso. Inoltre decorreranno sul debito scaduto gli interessi moratori annui calcolati nella misura del tasso "prime rate" corrente maggiorato di 5 punti percentuali.
11) RISERVATO DOMINIO Il materiale anche se spedito e regolarmente fatturato resta di nostra proprietà fino al pagamento totale della fornitura medesima anche in caso di passaggio o vendita terzi.
12) FORO COMPETENTE Per qualsiasi controversia sarà esclusivamente competente il foro di Modena.

1) APPROVAL All orders that we receive are considered to be binding only after our written confirmation has been issued.
2) DELIVERY The materials are intended as delivered upon loading at our warehouses. All transport risks, including missing pieces, breakage, deterioration and tampering are the sole responsability of the Client, even if the price agreed upon is carriage free, FOB, or C&F. Agreements with forwarding agents are intended as concluded in the name of and on behalf of the Client, who hereby confirms and accepts their terms and conditions.
3) TERMS OF DELIVERY The terms of delivery are indicative, eventual delays in the delivery, interruptions, or total or partial suspensions of the supply do not allow any right to indemnification or compensation for damages.
4) DISPUTES The guarantee of the goods is limited only and exclusively to first rate materials, with a tolerance of approximately 5%. The difference in shades of colour cannot be declared as a material defect. Eventual complaints regarding the quality or the type of material must be submitted within 8 days from the date of delivery. The purchaser agrees to make available the disputed lots in order that the declared defects may be controlled. In any case, the installation exonerates the manufacturer from any liability. Eventual manufacturing defects or quality defects in the goods, where declared according to law and ascertained or recognized, give right only to the replacement of the defective materials, provided that the goods have been returned previously and the written authorization of the return operation has been issued, the resolution of the contract as well as any compensation for damages is peremptorily waived and excluded.
5) DIMENSIONS AND TONALITY Our materials are classified as products fired at high temperatures and as such may present discrepancies between the dimensions declared and those actually delivered. The same applies for differences in colours within the same production lot. Therefore, the client may not present a dispute regarding abovementioned product characteristic.
6) PACKAGING AND QUANTITY The good condition of the packaging and cartons as well as the quantity delivered are verified upon acceptance of the goods by the forwarding agent. The forwarding agent declares himself responsible for the condition and quality of the goods upon signing the packing list. In case of missing pieces of breakage, the purchaser must ask for eventual damages or compensation from the forwarding agent.
7) RETURNS For no reason will purchaser be able to return the material without our express prior written authorization and all the costs of the return will be assumed by the Client.
8) CANCELLATIONS Order cancellations will not accepted if the material has already been produced or if the production has already begun, and more so if the materials have already been shipped. In any case, the Client is obliged to pay the entire sum of the supply if the order is cancelled. If the acceptance of the cancellation is feasible, the Client will be peremptorily obliged to reimburse all the expenses sustained by the producer up to that moment.
9) PRICES The prices on our price list are not binding. We reserve the right to modify prices before accepting an order.
10) PAYMENT Payments must be made only in our main office. Delays of more than 10 days for each payment due or insufficient funds during the same term of a check, whether endorsed of transferred, or issued by the customer, constitutes bad debt. In this case, we reserve the right to suspend supply and annual all ongoing relations, immediately require total payment of all ongoing relations; require total payment of each credit and to make legal recourse, whether executive or precautionary, as well as request compensation for damages. In any case, after 10 days any payment due,we are authorized to issue an on-sight draft with expenses without notice. Furthermore, annual penality interest will accumulate on the expired debt to be calculated according to the current "Prime rate" plus five (%) percentage points.
11) SELLER'S LIEN The material, even is shipped and regularly invoiced, remains our property until payment in full of the invoice itself, even in case of passage or sale to third parties.
12) PLACE OF JURISDICTION For any eventual dispute, the only place of jurisdiction will be the Modena Tribunal.

SERVIZI DI LOGISTICA

ANNULLAMENTO ORDINI per l'annullamento autorizzato di ordini di materiali già consegnati al nostro deposito e per resi autorizzati, verrà addebitato il 15% del valore imponibile, per contributo spese di trasporto e riselezione.

IMBALLAGGI

ADDEBITO
Gli imballaggi speciali saranno addebitati al costo visibile nella tabella riepilogativa.

RESO gli stessi potranno essere resi e riaccreditati a condizione che vengano restituiti in buono stato.

GENERAL NOTE

CANCELLATION OF ORDERS for the authorized cancellation of orders for materials already delivered to our warehouse and for authorized returns of the goods, 15% of the taxable value will be charged, with a minimum fixed contribution towards transport and reselection costs.

PACKAGING

CHARGES
Special packaging will be charged according to the schedule.

RETURNS
The packaging may be returned in its original condition for credit against future orders.

CARATTERISTICHE GRAFICHE / GRAPHIC CHARACTERISTICS

FULLVEIN3D

Così come il marmo naturale, anche i prodotti FULLVEIN3D possono presentare disallineamenti tra la grafica della superficie e la riproduzione delle vene nello spessore della lastra. Questa peculiarità è da ritenersi una caratteristica del prodotto.
As with natural marble, FULLVEIN3D slabs may exhibit slight misalignments between the surface graphics and the vein pattern extending through the thickness of the material. This feature is an inherent characteristic of the product.

BOOKMATCH SLAB A+B

La grafica bookmatch, al pari delle pietre naturali, potrebbe presentare discontinuità negli agganci tra una lastra e l'altra con una tolleranza fino a 3 cm.
Bookmatch graphics, like natural stones, may present discontinuities in the connections between one slab and another with a tolerance of up to 3 cm.

6 MM ITEMS

Gli articoli a 6mm di spessore prevedono pattern grafici diversi non selezionabili in fase di preparazione.
The 6 mm thick articles have different graphic patterns that cannot be selected during preparation.

MATERIA garantisce una superficie utile pari a 1635x3230 mm, la fatturazione invece è calcolata sulla base del formato 1600x3200 mm.
MATERIA guarantees a useful surface area of 1635x3230 mm whereas billing is calculated on the basis of a 1600x3200 mm size.

Su richiesta, le lastre in 6 e 20 mm di MATERIA possono essere rinforzate strutturalmente con una stuoia in fibra di vetro applicata sul retro con apposito collante come avviene già in automatico per le lastre in 12 mm. L'applicazione della stuoia prevede una maggiorazione sul prezzo netto della lastra.
On request, the 6 and 20 mm slabs from MATERIA can be reinforced with fiberglass matting applied to the rear surface using a special adhesive as already happens automatically for 12 mm slabs. The fiberglass matting application involves a increase on the slab's net price.

Su richiesta, le lastre MATERIA possono essere rettificate nella dimensione di 1596.5x3195 mm con una maggiorazione.
On request, MATERIA slabs can be retictified size 1596.5x3195 mm with a supplement.

Le caratteristiche di superficie e le tonalità dei prodotti ceramici illustrati in questo catalogo sono da ritenersi puramente indicative.
Optical features and color shades of ceramic materials illustrated in this catalogue are to be regarded as mere indications.
